PATENTS.

American and Foreign Office.

AGENCY FOR BUSINESS

With L. S. Paten. Office,

WASHINGTON,

NO. 22 STATE STREET, BOSTON.

IN 1840 the subscriber was appointed by the Commissioner of Patents, Agent of the U. S. Patent Office, in accordance with the 13th Sec. of Act of '37.

Having relinquished the Agency for the transmission of Models, and adopted a more expeditious mode of sending them to the Patent Office *whereby a Patent may be procured about six weeks earlier;* he continues to forward them free of expense—to prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings for Patents; and to render advice on legal and scientific matters, respecting the same. Patents secured in Europe and other countries.

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents. They also have the advantage of *personally* explaining their inventions, and of consulting in respect to them; *multitudes, in general, of persons and interests are thus.* The experience, [illegible] years' experience, an extensive collection of rare works, decisions, &c. on mechanical subjects, the Patent Laws, and patents of different countries, collected at much expense during the long time this office has been established, together with accounts here kept of inventions patented at Washington, qualify the subscriber to afford to inventors desirous of procuring Patents, assistance and information which in other respects might be difficult of attainment.

R. H. EDDY, Solicitor of Patents.

WASHINGTON, JULY 21, 1849.—During the time I occupied the office of Commissioner of Patents, R. H. EDDY, Esq. of Boston, has been extensively at the Patent Office as Solicitor for procuring Patents. There were few, if any, persons employed in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed men in these and Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent to do their business, and more capable of putting their applications in a form to secure for them a prompt and favorable consideration at the Patent Office. New Hotel at Oldtown!

JAMES STINSON

Announces to his friends and to the public, that he has fitted his large, commodious and centrally situated dwelling for a Public House, and has opened the same to the public with the determination that every attention shall be paid to the accommodation of the travelling community.

He gives full assurance that he will keep a TEMPERANCE HOUSE, and that nothing shall be wanting on his part to entitle him to the approbation of all who may favor him with their patronage. The House will be kept on a liberal scale, and the most assiduous attention shall be given to make the house a desirable and comfortable home for travellers as well as more permanent boarders.

It is believed that a Hotel of this description is greatly needed in Oldtown, and the public are invited to give it their support.

LATEST AND BEST

...IMPROVEMENT...

Patent Bedstead.

THE Subscribers have purchased the right of manufacturing and vending HINKLEY'S IMPROVED PATENT BEDSTEAD for the city of Bangor.

This improvement is simple in its construction and consists in fastening a substantial Bottom to Bedcords which, but be elastic and have all the advantages of a Slat, or Sacking Bedstead, while at the same time, it serves to secure the posts and rails compactly together, without other aid. It can be fitted to any Bedstead, *old or new*, with much less time and labor than is required to put in a cord, and when fitted, gives *great strength* and support, and keeps the Bedstead in proper shape. It cannot be doubted that this simple improvement, will, when known, take the place of every other method now in use. We can confidently recommend the above improvement to our customers and to the public as the cheapest, most substantial and best Bottom ever invented.

The Public are respectfully invited to call and see for themselves. SHAW & MERRILL,

MRS. E. KIDDER'S Cholera, Dysentery,

...AND...

Diarrhœa Cordial,

—AN—

Immediate and Perfect Remedy,

...FOR...

Cholera, Dysentery, Summer Complaints of Children, Diarrhœa, Sea Sickness, general Debility, &c.

WHERE this all powerful antidote is at hand, Cholera is no longer to be seriously feared, or looked upon with terror—as this Cordial will most assuredly cure the disease in the course of a very few hours, if taken at the commencement—

It has been before the public for more than seventeen years, and was the first article made known to the public as an

IMMEDIATE AND PERFECT CURE OF THE

CHOLERA

It has been thoroughly tested in every country and every climate, and its effect has everywhere proved the same;

SURE TO CURE,

even when the disease has advanced to its last stages.

CHOLERA.

Accounts almost daily reach us of the ravages of the CHOLERA, both at home and abroad, and of the little success which has thus far attended the attempts to check its frightful inroads—a human bid.

Such being the fact, it surely may be regarded as an era in modern discoveries that a medicine has been discovered possessing the power of checking the progress of the Cholera, and eradicating it from the system.

Mrs Kidder would most respectfully call the attention of the public to this invaluable medicine, known as her

"CHOLERA, DYSENTERY AND DIARRHŒA CORDIAL."

Many thousand lives have been saved by this medicine, when the disease had advanced to its last stages.

It is hoped that every housekeeper will keep the Cordial at hand, and if timely administered but little danger is to be apprehended from an attack of the

Cholera, Dysentery or Diarrhœa.

This Cordial immediately checks the vomiting, relieves the pains, stops the Diarrhœa, and restores the bowels to a perfectly regular and healthy state however severe the attack may be, or however low the patient may have become, invariably restores.

The Severest Cases of Dysentery

are immediately counteracted, the pains relieved, the bowels healed, and not infrequently the bowels become perfectly regulated and restored in the short space of ten or twelve hours.

Chronic Diarrhœa,

Either in children or adults, of months or years continuance, is most readily cured with this Cordial, notwithstanding they may be reduced to mere skeletons; it immediately strengthens, and shortly restores them to perfect health.

Cholera Infantum.

It has saved the lives of many thousand children when reduced to death's door by this complaint,—it gives them immediate relief, and they very soon recover.

Sea Sickness.

It is a most pleasant and desirable remedy for Sea Sickness. It checks the vomiting and readily restores the patient. It invariably checks vomiting, produced from any cause whatever.

Children that are Teething,

if inclined to Diarrhœa, should always be provided with this medicine, as it will keep the bowels regulated and keep off the Canker. It is wholesome, safe and pleasant to the taste, and children are fond of it, and will take it without trouble or dislike.

For General Debility and Dyspepsia,

it is a most excellent restorative, giving a healthy tone to both the stomach and bowels, and prevents food from pressing or distressing the stomach.

The public may rest assured that it contains neither opium or mineral substances, or anything that is in the least injurious to the constitution.

CAUTION.

Be sure that you obtain MRS. E. KIDDER'S CHOLERA MORBUS DYSENTERY and DIARRHŒA CORDIAL, and you will get the only true and original article, which has ever been in the highest estimation by the public throughout the whole country.

It is put up in bottles hold nearly a quart, intended for family use, and sold at One Dollar per bottle.

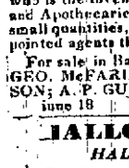
HALLOWELL HOUSE,

HALLOWELL, MAINE.



THE subscriber respectfully announces to his friends and the public, that he has leased this well known Hotel, and has made many important improvements and repairs. The house has been newly furnished throughout in a manner that will compare with any other establishment on the Kennebec. It is his determination to make it one of the best resorts for the travelling public that can be found in this section of the country.

Gentlemen with their families, and members of the State Legislature will be furnished with superior accommodations. The proprietor hopes by personal politeness and attention, to merit the support and confidence of the public. Connected with the House is a good Stable where careful and experienced Ostlers will always be in attendance.

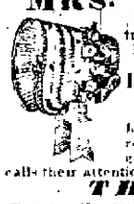
REMOVAL.



MRS. R. JORDAN

Begs leave to inform her old patrons that she has removed from

No. 23 Main Street, to 46,

...Opposite the...

HATCH HOUSE,

On the lower Floor.

Mrs. J. here returns her thanks for the liberal and extensive patronage of the inhabitants of Bangor and surrounding country, and calls their attention to

THE FACT

That her Establishment was the first of the kind opened in this place

Sixteen Years Ago,

And with her vast experience and resources for obtaining improvements at the present time, render her Establishment superior to any in this city, and Mrs. J. hopes to receive the continuation of that reputation which has universally been given her for the

Clear and fine Finish

of her Straw BONNETS.

With the large assortment of Straw Goods of her own manufacture, she is constantly receiving them from New York,—also from the

Home Manufactory

of DAVIS & BLAKE, Portland, whose new and improved facilities are such as enable them to sustain

THEIR REPUTATION

for Style and Finish, which is acknowledged by a Public not equalled by any other Manufactory in the *UNITED STATES.*

In addition to her Straw Millinery Department, MRS JORDAN is prepared to furnish her patrons with all kinds of Silk Millinery, comprising Caps, Silk Shirred Hats, Lawn, and Mourning do Hats, trimmed in an

Elegant Style,

by experienced Milliners, from a large assortment of the richest and latest patterns of Ribbons and Flowers just received from New York.

Mrs. J. also continues to clean and repair Bonnets in the usual style which is acknowledged by all to be the BEST. Particular attention is paid to the Bleaching and pressing of Gents. Leghorn, and Panama Hats. Also Ladies Lace Bonnets which are cleansed and finished in a manner that render them

Equal to New,

and Ladies who may be desirous of having their Lace Bonnets repaired, may rely upon having them done to their satisfaction or *NO CHARGE.*

And assures the public that they will find his establishment *the* road to commence to go to California; therefore, all who have soiled garments and would save money, are requested to call at MURRY'S. He warrants to remove spots occasioned by acids, grease, paint, tar, ink, and marks of all kinds, and press and finish the garments in a superior manner.—His mode of cleansing garments, is different from any in the city, as it does not injure them either in form or durability, but gives them the appearance of new.

Repairing and altering done in the neatest style. His work will be done well, at reasonable prices, and with punctuality.

He respectfully returns his sincere thanks to the citizens of Bangor and the public in general, for the very liberal patronage he received while in business here to fore, and hopes by strict attention, and by superior skill in the business, (as all who have favored him with their custom can testify) to merit and receive a share of public patronage.

Holden's Alterative and

TONIC MIXTURE.

IS the best combination known for changing the unhealthy secretions of the Stomach, and giving strength to that organ, and for removing many troubles which are often attributed to impurity of the blood.

Its action is that of a mild Alterative and Tonic, restoring health and strength often without producing any sensible evacuation, and without leaving behind any unpleasant effect on the constitution.

By its use the appetite becomes regular and good, digestion perfect, sick headache and many nervous disturbances growing out of imperfect digestion are generally cured; persons of debilitated constitutions become healthy and strong by its use.

By reason of the sympathy between the stomach and the skin, many diseases of the latter grow out of a morbid action of the former, even when the ordinary symptoms of Dyspepsia are wanting and are cured by this medicine.

Many troublesome children, supposed to arise from worms, are caused by a deranged state of the stomach, and are removed by its use. Persons both adults and children left feeble by protracted illness on the same principle are restored to health and vigor by taking it.

It contains no poisonous ingredient, and cannot in any case do harm.

Home Testimony

We, the undersigned, have ourselves, or in our families, used Holden's Alterative and Tonic Mixture and are satisfied it is a very valuable preparation for the cases for which it is recommended.

N. I. DOWN'S

Vegetable Balsamic Elixir,

The Great Northern Remedy for Consumption!

ALSO, the most effectual remedy in the world, for *Colds, Coughs, Whooping Cough, Croup or Quinsy, Asthma, Pain in the Side or Stomach,* and all diseases of the LUNGS AND LIVER.

This medicine is purely vegetable, and is by far the most effectual of medicine known, for all diseases affecting the BRONCHIAL OR PULMONARY ORGANS.

Its effect upon the patient is most marked, and differs from the of most medicines recommended for the same complaints, in the following particulars:

1st—It never irritates the organs it should soothe—never dries up the cough, leaving the cause untouched—but *first loosens the cough, increases the expectoration or spitting,* then removes the cause, *eradicating it completely* from the system, when as a matter of course, the *cough ceases,* and the patient is well.

2d—It never produces costiveness in the consumptive patient—or the contrary, it has a laxative effect and is a moderate cathartic. We defy the world to produce a case of costiveness so inveterate but that in two or three weeks (the patient in the mean time having proper regard to diet) it will entirely remove it, and produce a healthy action of the bowels.

3d—It does not produce a *dryness of the skin* but is a powerful promoter of *sensible and insensible perspiration,* thus expelling by the pores of the skin, those noxious fluids and impurities of the blood, the retention of which in the system is the *sure precursor of* DISEASE, SICKNESS AND DEATH.

We do not pretend that DOWN'S ELIXIR is a specific or a cure for all the ills that flesh is heir to, but we do say, and can confirm by incontestable evidence, that for

CONSUMPTION,

And all all diseases of the *lungs, the liver, and the pulmonary organs,* it is *unrivalled—unequalled*—HUNDREDS by have been snatched from an untimely grave, and hundreds who *delayed too long its use,* have found, in the advance stage of their disease, that RELIEF FROM SUFFERING, which they had vainly sought from every other source.

This INVALUABLE MEDICINE is *highly concentrated* and put up in 2 oz and 4 oz bottles at fifty cents and one dollar per bottle, and each bottle warranted to contain MORE CURATIVE PROPERTIES than four bottles of any of the *weak adulterated* pint bottle preparations of the day.

We have received *hundreds of certificates* of its wonderful cures, from every part of the country, many of which have been published *and may be had gratis of any of our agents.*

Sold wholesale and retail by CURTIS & SMITH General Agents, St. ALBANS, VT., to whom all orders for supplies of the medicine should be addressed, (stating the best mode of sending it)—also, sold by agents in nearly all the villages and towns in the country.

It is also sold, at wholesale and retail by David Hughes, G. W. Ladd, Curtis & Perkins, A. P. Guild, Wm. Mann, G. McFarland Bangor; L. S. Smith, J. W. Curtis & Co. Hampden; Chas Johnson, J. K. Chick, Frankfort; H. P. Fifield, Bucksport; J. J. Cooper, Jr., S. P. Hatch & Co., Castine; I. Nourse, Geo. Parcher, Ellsworth; E. P. Butler & Co. Orono; J. & R. Fisk, H. & J. Y. DR. SPEAR'S

SO MUCH CELEBRATED

Indian Vegetable Medicines,

ARE Universally Acknowledged to be the Safest, Cheapest and Most Effectual Remedies for the various Diseases of the human system, ever offered to the public. They can be relied on with confidence to cure all curable cases. Their action is immediate and thorough, eradicating disease in its worst forms.—Thousands who have been pronounced incurable by the Physicians, yet live, to testify to the virtues of these extraordinary preparations, having been restored to sound health by their use.

We will name here some of the principal Medicines and their uses, referring the enquirer after health, to the "FAMILY PHYSICIAN," a work edited by Dr. J. S. Spear, where may be found a brief treatise on the origin and nature of the principal diseases which afflict humanity; directions how to preserve and restore health, together with some certificates from highly respectable persons, testifying to their healing virtues and urging their importance. This book can be obtained of Dr. Spear's Agents, free.

BALM OF LIFE, Nos. 1 & 2.—For Consumption, Dyspepsia, Indigestion, Liver Complaint, Debility, Nervous Affections, Phthisic, Asthma, Palpitation, Bronchitis, &c.

CATARRH SNUFF.—For Consumption, Catarrh Cough, Headache, &c.; this is a certain cure for Catarrh, and surpasses any other preparation for cleansing the head in cases of colds, &c. THE LIVER WORT PILLS, have been for a long time considered universal medicine. A trial of one box will satisfy the patient that they are the best purgative known.—They remove the most severe colds, coughs, pains or fevers if taken in season. SCROFULA SYRUP.—This is one of the most effective agents in use for cleansing and purifying the blood. It removes every impurity from the system, whether of a scrofulous or cancerous nature. It is a compound of seventeen ingredients, and is purely vegetable character. For efficacy and safety it cannot be surpassed. CHOLERA MORBUS AND DYSENTERY CORDIAL, if used according to directions, a cure is warranted in every case for which it is recommended. GERMAN LOTION.—This is warranted to cure the Felt Rheum in its worst forms. TONIC CORDIAL, is one of the most powerful tonics ever discovered. It is the best female medicine to be obtained. WOMAN'S FRIEND, for the falling of the womb. This is the only remedy before the public for this purpose. It obviates the necessity of resorting to instruments, and is unquestionably a most certain remedy. EYE WATER.—This is the best eye water now in use. GRAVEL MIXTURE.—This will cure all cases of the gravel. For other remedies, see "Family Physician."

All the ingredients of the above medicines are furnished by Nature herself, and are combined in accordance with known principles universally received as sound by all scientific Physicians.

Their merits have been known and proved by thousands. They have been tested and proved to be equal to the consideration claimed for them.

If after trial fails to restore health, so confident is the proprietor of their efficacy, that the expense of any other means which does effect a cure will be paid, provided it does not exceed one hundred dollars.

NEW AND

Important Discovery

GRAY HAIR can be restored to its original color, whether Auburn, Brown or Black; Sandy, Light or Red Hair can be matched with any darker shade, surpassing in beauty even the most natural locks, retaining the gloss and softness of the original Hair, by using O. M. Ballard's

Permanent Liquid Hair Dye,

Of one preparation which is entirely different from all other preparations of Hair Dye now before the public. Is free from all injurious properties, which can be tested by taking a lock of the finest and most delicate Hair of an infant, and color it with the Dye, which will not impair its gloss or its texture in the highest degree, which is the best evidence which can be given that it is not injurious. On the contrary, it improves the lustre of the Hair, promotes its growth, and prevents it from falling out, and unlike other preparations, after the Hair is colored and dry, will not crock, fade, or wash out.

In short, from its peculiar delicacy, softness, and easy application, it is worthy the attention of all who may wish to improve the color of the Hair, as it will make any shade, from a white to a jet black. It is now used to an unaccountable extent, by persons who have prematurely turned gray, and others whose Hair is of no desirable color, which they restore or exchange for a beautiful Auburn, Brown or Black, without any additional preparation or the slightest trouble.

BY E M F

London August 21st 1849

Dear Sir —How often have I stood by the last resting place of Am[illegible] early dead, per chance of the Pilgrim Fathers, in some quiet New England church yard, and have read the quaint and touching inscription on the almost illegible stone, telling of ocean a crossed, of privations patiently endured and of the final victory achieved, and have allowed myself to be lost in a contemporary imagination with those souled men, treading with them the rough and toilsome path of a pioneer life—how often, I wish I have been engaged, have I wished that I might be my self in some future day to visit the garnet-houses of England s early and early dead, even in dim and shady aisles of Westminster Abbey and St Paul s Cathedral, to mingle with the shades of those who have slept for ages

The dream of my boyhood has been realized A few days ago I stood at the entrance of Westminster Abbey! A worshipper of the Past, whether it present itself in the form of a jaded lover of last year s pride, or on the relics of reality and grandeur that were the glory or shame of the world s early ages, it were vain to attempt to analyze my emotions as I entered the low portal that gives ingress from the world, and stood among the kings and queens—the talented and illustrious—the mighty in song and in battle that once acted their part upon the stage of life seeming even now, as they stood forth in marble semblance from their several niches, like listening, conscious petrifactions of what history has recorded of them in her undying annals But mingled as were my sensations I was conscious of an intense feeling of reverence and love the actualities that surrounded me vanish ed and my whole soul expanded into the infinite, myself seemed annihilated, and over earth and in nature and art, hovered a vague idea of eternity

The early history of Westminster Abbey is involved in fable Previous to the conversion of our Saxon ancestors to Christianity, a temple dedicated to Apollo stood on the spot now occupied by the Abbey It was built upon an island, called Thorny island, from its being surrounded by the river Thames, and over grown with thorns It was about the year 604 that Sebert, king of the East Saxons, having quitted paganism and embraced Christianity, determined to build a church to the honor of God and St Peter in the West side of the city of London, but this monarch dying before he had completed his undertaking, his sons and his people relapsed into heathenism Shortly afterwards the Danes almost entirely destroyed the church commenced by King Sebert, who however may lay claim to the honor of having founded Westminster Abbey Nothing was done till about 360 years after the death of the monarch, when king Edgar, at the suggestion of the celebrated Dunstan, rebuilt the church, and endowed it as a Benedictine monastery Up to the time of Edward the Confessor, little else occurred in connection with the Abbey worthy of notice But Edward having made a rash vow, was absolved from its fulfillment by Pope Leo IX, on condition of building and beautifying king Sebert s church. Accordingly in the year 1049 it was rebuilt in a magnificent manner, but this was not suffered to remain, and Henry III, reconstructed the Abbey almost entirely West minster Abbey, as we now see it with a few improvements and additions, is the Abbey church completed by Henry III, and bears date of the year 1285

Centuries ago, down the gloomy aisles of this venerable monument of the Past, cowled monks and sandalled friars have wandered Beneath its roof the solemn services of the Catholic church have been listened to by countless multitudes, it was within its holy walls that devotees came from all parts of the world to behold the sacred relics collected by the monks from whence or how, tradition saith not Amongst these relics were to be found a part of the manger in which the Saviour was born, the frankincense offered him by the Eastern Magi, a splinter of the table from which the last supper was taken, a crust of the bread that Christ blessed, a slab of the wall of he prison in which he was confined, a shred of his undivided garment, fragments of the sponge dipped in hyssop which he sucked the scourge with which he was tortured, and the lance by which his side was pierced Then came the Reformation and monkhood monasteries, relics and images, were swept away Under Mary it again became a Benedictine monastery on the accession of Elizabeth there was a change once more,—so uncertain are all human events

"Each hour brings
Some alteration, or some metamorphosis,
Some feat of legerdemain, such Time, is thy office"

During the civil war between Charles I and his people, Westminster Abbey was used as barracks for the soldiers of the Parliament, who wantonly destroyed and mutilated many of the tombs and monuments that adorned the various chapels, and altars in these chapels to the saints were thrown down, the images broken, and the rich-stained windows through whose colored glass the dim religious light was admitted, were shattered to fragments

Westminster Abbey is rich in interesting associations William the Conqueror, on his arrival in London returned thanks to Heaven, at St Edward s shrine for his victory over the unhappy Harold Chaucer had a tenement in a garden adjoining and the first book in England was printed within its precincts It was here Cromwell was buried, and afterwards, by the Parliament of the second Charles, exhumed In its aisles and in its chapels the descendants of Robert Bruce sleep as the warriors of the English crown by the side of the first Edward the English Queen Elizabeth lies in the same sepulcher with the Scottish Queen Mary —the beheader and the beheaded in the same tomb —

"The grave unites where none the oppressor and the oppressed
Pitt within a yard of Fox Clifford near the grave of the man Ben Jonson whose character he had freed from the foulest aspersion, and whose works he had edited with a tact and a taste but seldom met with, and Macpherson and Dr Johnson Ossian and Anti-Ossian, in this transept

"But where are they the rivals—a few feet
Of sullen earth In decay each winding sheet
How peaceful and how powerful is the grave
Which hushes all

In Westminster Abbey, besides that of Henry VII, which is a seperate building, there are Chapels round that of St Edward the Confessor, which stand as it were in the centre, and inclosed in the body of the church I will briefly notice some of the more interesting points of observation in these chapels and transepts as I pass along

California Correspondence.

To the Editor of the Whig and Courier:

San Francisco, July 27th 1849

I have at last arrived at my port of destination, and right glad I am to get on land once more Dr Straw, Mr Gamble, and myself have pitched our tent in 'Happy Valley' (which is about half a mile from the city,) and are living as high as you can imagine Near our tent and about five rods from the seashore, is as fine a spring of water as I ever tasted, and our wood is not much further off, so you see we are wonderfully provided with two principal necessities of life. Around us can be seen men of all trades, some building boats, others at work at the forge, while some are too indolent to work at all, and are lounging about on the ground in front of their tents

I should judge there were five hundred tents in the valley containing as many as four thousand persons, which are of all nations, still they are perfectly peaceable, and not the least broil has been known to arise If such a state of things continue, I certainly think, shall have to believe in Millerism Gold continues to be as plenty as heretofore, although a man sometimes makes his fortune in a day while others will not get a York shilling I consider it a gambling like a lottery, although there are places where a man is sure of his ounce per day As a general thing people are not satisfied with that, and in searching for better places often get *nothing at all* I examined a lump a few days since that weighed fourteen pounds, it was not entirely pure, being in its natural state, and mixed with quartz This piece was picked from a rock

The best time for digging I am told commences about the first of September and continues till about the first of December, at which time the wet season sets in. About the first of September the river is the lowest, then is the time to wash it from the bank When the river is high, the banks in many places are very steep and difficult to ascend, so much so that it is impossible to reach the water. It is reported to be quite sickly at the mines now, and many are coming down to stay till the weather becomes cooler I have been informed that the Thermometer stands in the middle of the day at 112 I think I shall not venture up till it becomes cooler, for if a person's health is gone in this country, everything is lost.

We arrived just in the right season to get everything ready before going into the mines Labor is very high here and some of the passengers in the Sultana, are engaged in unloading vessels at twenty four dollars per day Common laboring men are getting from ten to fourteen dollars

Small Shooners run up the rivers Sacramento and San Joaquin to Sacramento city and Stockton, the latter place is situated on the San J about 160 miles from this place As near as can ascertain the San J diggings are the richest, as I have seen several men direct from there who tell me they have averaged five ounces per day Goods are a drug here, especially clothing I saw one hundred red shirts sell at auction for *seven dollars*, other dry goods in proportion — Speculators are entering into the real estate very extensively Yesterday a small lot was sold on Washington Street, which was 20 by 42 with a building on it,—the frame composed of inch boards split, and covered with cotton cloth, for $40 000 It was occupied as a gambling and drinking House, there are a great many such in town Gambling is carried on to an alarming extent

There are, comparatively, few wooden houses here yet, the most of the stores being made after the same fashion as the house I described above Provision here is very cheap, quite as cheap as it is in the States, although clothing and provision are so low, I should recommend to a person coming out to take a supply with him by all means, as I think they will take a rise before a long time Very few take any provision into the diggings with them—they store it here, they can buy it there at any place, as it is carried in waggons through the diggins for sale They say it is too much trouble to lug it about—they can do better to travel and hunt for gold and buy their provision when they want to eat it Freight from here up to Stockton is high, they charge three dollars per hundred and $16 for a passage Vessels drawing eight feet of water can go up as far as Stockton or Sacramento city on the Sacramento

Large vessels as soon as they arrive here are deserted by their crews, and the shipping in port wears rather a gloomy appearance, some are used for store ships, they charge one dollar per month for Bbls, Chests and Trunks the same price There are now 150 large vessels in port and small ones in any quantity The small ones find employ in running up the rivers The P O here is managed very badly I have been there two days and got a letter each day I know of many others of our party that have done the same I was informed in one of my letters that I received, that you have sent me the Whig and Courier regularly *I have not received one*, although I have inquired at the Office several times for them I asked the P M to look among the papers that came in the mail before the last he replied they were put in bags to make room for the last mail which arrived here July 15th I send the "Alta Californian" to the Merchantile Association but think it rather doubtful about their receiving it I shall write you again and let you know how matters are

Yours truly, R B C

☞ It is recommended to those cultivating Tomatoes to cut off the tops of tomato plants (yet full of fruit) close to the ground, before they are injured by the frost, and lay them in an empty hot-bed frame, cover them with glass, and keep them closely covered day and night, the fruit will gradually ripen for six weeks, and prove excellent

☞ We have received from Messrs Jenks, Palmer & Co, of Boston, a copy of the Farmer s Almanack for 1850 It preserves, in a wonderful degree the freshness and usefulness of its early day when it stood alone, and was admitted to every house

The opening address of the editor has less fun in it than some previous ones, but contains much food for thought We would copy it but suppose that everybody will soon have it in their hands and read it with the greater pleasure from not having previously read it

☞ Josiah Bailey, Osgood, Tyler, Augustus Fisher, and Calvin Blanchard, all of Corinth, have been examined and severally bound over for their appearance at the October Term of the District Court, charged with being participators in the mean and cowardly assault on Asa Walker Esq, on the evening of Aug 22d, near south Levant We learn that the evidence identifies pretty strongly, one or two not yet arrested—indeed, the evidence shows a conspiracy implicating a large number of men from different towns—a conspiracy we yet hope to see nurtured

Texas.

It is stated that P Hansbrough Bell, who has been elected Governor of this State, is a Whig He was elected however, without regard to politics, and the State is well known to be strongly Locofoco

☞ The American Congress of Fruit Growers will hold a session at Castle Garden in New York on the second day of October next The Bangor Horticultural Society is to be represented

☞ We give up, to day, a large portion of our columns to our correspondents, whose favors we doubt not, will be read with much interest

☞ The Horticulturalist mentions the success of several persons in avoiding the mildew upon English Gooseberries by mulching the soil about them with salt hay, and sprinkling salt about the bushes in the spring

☞ A new, large, beautiful, double, yellow, climbing rose, called "Augusta," has recently been produced in Ohio It is esteemed a great acquisition to the rose family.

HUME'S HISTORY OF ENGLAND

Messrs Phillips, Samson & Co of Boston have issued the second volume of their cheap, convenient and uniform edition of Hume's History of England, an edition calculated both in price and size for a table edition of this important history, and to make it generally owned and read in our country Take it all in all this is doubtless the best history of the kind to be had It is no faultless in all its parts, nor absolutely accurate in all its representations, but these errors are few, even when carefully sought for. But who can equal Hume in the accuracy and richness of his language, or stand as a better model of the English tongue This edition of English history embracing Hume and Hallam, so far as yet published, may be obtained in this city at Bugbee's Bookstore.

The Peace Congress at Paris,

The sitting of the Congress was resumed at 12 o clock on the 22d, when the President (M. Victor Hugo) took the chair, and communicated to the meeting six addresses from Berlin, Danzic and other places in Germany, containing express one of sympathy with the object of the Congress Thanks were voted to those cities. The President announced that discussion on the second article of the programme, the general disarmament, would then be taken The Rev M Coquerel was the first speaker who advocated the practicability and necessity of this step, and was followed by M Soringer, of Holland, M Francisque Bouvet, representative, M Henry Vincent, and M Emelie de Girardin M Ewart, M P, spoke in support of the principle under discussion in the French language Mr Cobden was received with loud cheers when he ascended the tribune, and during the whole of his speech, which he delivered first in French and then substantially in English He dwelt particularly on the doctrine that standing armaments mutually augmented each other, in consequence of the rivalry and defiance which they kept up The President then put the resolution in favor of general disarmament, which was enthusiastically carried Some other resolutions, with did not involve any discussion, were then put *seriatim* and carried, after which the Congress adjourned to the following day

The third and last sitting was held on the 24th, when the Hall of St Cecile was more crowded than one ther of the previous days M Coquerel exhibited a small volume which had been forwarded to him by M Barbier It was a work written by Wm Penn in 1693, and entitled "an essay towards the present and future peace of Europe" A letter of sympathy was read from the poet Beranger It was announced that the grand water works of Versailles would be set in motion on the 27th, in honor of the Congress, by order of the French Minister

A written memoir by Elihu Burritt was then read in French by M Cocquerel, Jr, and was received with great applause The Abbe Deguerry followed after whom spoke Mr A Walker, member for Massachusetts in the United States Congress M Bodenkin, a German (the first who had spoken,) came next in support of the principles of arbitration and universal peace

M Villemen then ascended the tribune, and commenced to read a speech in which, to the astonishment of the meeting he supported and defended war, contending that it was the shortest way to peace He was interrupted by the President, after which he endeavored to discuss the policy of the French Republic, but was again begged not to continue, and at length retired

Mr Moall editor of the *Nonconformist* newspaper, and Mr Wm Brown also spoke in support of the fourth resolution, viz, The Congress strongly disapproves of all loans and taxes designed to promote wars of ambition or conquest Mr Cobden addressed the meeting in the first place He alluded principally to the recent war in Hungary, and denounced General Haynau as the Attila of the 19th century M Faline then attempted to speak in support of the maintenance of defensive armaments, but was stopped, on which he exclaimed that the tribune was not free M Emile de Girardin and Mr Joseph Sturge having spoken to this resolution, it was carried by acclamation

The last resolution was that of an address to all nations embodying the feelings of the Congress, it could be drawn up, and was adopted without any discussion Mr Brown, an escaped slave, and the Rev Mr Pennington, also an escaped slave, addressed the Congress respecting slavery in America Mr Cobden proposed a vote of thanks to the French Government, for the kindness they had shown to the members of the Congress and to the chairman and officers of the Congress, in support of which Mr Bronterion, M P, and Mr Smith M P, spoke. Mr Hugo returned thanks in a short but eloquent speech, after which Mr Cobden called for English cheers, and three times three were enthusiastically given. The immense crowd then left the building and the last day's sitting of the Congress closed

On the 27th ult the English delegates of the Peace Society gave a *dejeuner* at Versailles to the American delegates, and passed a resolution in honor of them Mr Cobden, as chairman of the English delegates, made a speech, in which he spoke with great kindness of the American delegates, and afterwards presented to each of them, a copy of the New Testament in French, with an inscription bearing his signature. The speech of Mr Cobden was replied to by Mr Allen, of Massachusetts After dec aring the delight with which the Americans met their English brethren in the Congress of Peace he said

"We are the descendants of the Puritans who fled from Leyden in Holland, and from the chalky cliffs of England, crossed the wide ocean to find an asylum for freedom—freedom as to civil rights, freedom to read the Bible—freedom to worship God We have crossed the ocean and assisted in this congress, in order to give the world freedom from war" Alluding to the slavery of the blacks in some portion of the United States, he said after explaining the difficulties of the slave question, "Reproach not then the American Government for not abolishing slavery, but reproach us as much as you please, for what has been done to extend the empire of slavery into new states; reproach not beloved America, but reproach, if you please Virginia, South Carolina, or Georgia Reproach us not as a people is the mass." In alluding to the reception which the members of the Peace Congress had met with here, Mr Allen spoke in warm terms of France,—but added:—"What France wants, as it appears to me, is not intellect, is not science, is not literature, taste, refinement, but the familiar knowledge of the great truths of the Bible One of the Kings of France expressed the wish that every peasant in his dominions might have a chicken in his pot—We will express a different wish—that every French peasant may have a Bible in his cottage"

☞ We understand that the public schools in the city, will commence on Monday October first instead of the twenty fourth of September which latter day was named in the notice of the School Committee, through a mistake d3t

HEALTH.

AN ORDINANCE prescribing rules and regulations relative to nuisances sources of filth and causes of sickness, within the City of Bangor

Section 1 Be it ordained by the Mayor Aldermen and Common Council of the City of Bangor in City Council assembled, That no person shall throw or deposit, or cause to be thrown or deposited in any street, lane, court square alley, wharf or public place, within half a mile of Kenduskeag Bridge any sawdust, soot, ashes, rubbish, shavings, hair, shreds manure, oyster clam or lobster shells or any animal or vegetable substance whatever, nor shall any person throw or cast any dead animal or any foul or offensive ballast into any dock or place, between the channel of the river and the shore, nor land any such foul or offensive animal or vegetable substance within the city nor cast any dead animal into the channel without securing thereto a sufficient weight to prevent it from floating

Sec 2 Be it further ordained, That if any of the substances mentioned in the preceding section shall be thrown or carried from any house warehouse shop cellar, yard or any other place, into any street lane, alley, court square wharf or other public place the owner or occupant of such house, or place, and the person who actually threw or carried the same therefrom shall severally be held liable for such violation of this ordinance, and all such substances shall be removed from any street or other place above mentioned, by and at the expense of the owner or occupant of such house or other place within two hours after person shall notice in writing to that effect given by the Mayor, any Alderman, the City Marshal or his deputy, or any member of the Health Committee duly appointed by the City Council

Sec 3 Be it further ordained That whenever any person shall have been duly notified to remove any nuisance, or to perform any act or duty required by the laws of the State or the ordinances of the city for the preservation of health which now are or hereafter may be made and the time limited for the performance of such act or duty, shall have elapsed without a compliance with such notice the City Marshal shall, from time to time issue new notice until the act or duty shall be performed And the Mayor shall cause all persons who shall violate this ordinance or the laws of the State concerning health to be prosecuted And in case the Mayor Aldermen or City Marshal shall be of opinion that the health or comfort of any of the citizens requires that any particular nuisance shall be removed the same shall be forthwith removed by the City Marshal And if the nuisance existed in violation of the ordinance of the city or law of the State the expense of removing the same shall be paid by the owner or occupant of the house, warehouse dellar yard lot or other place, where the same was found and if payment be refused, upon demand thereof by the City Marshal, an action for money paid may be maintained against said owner or occupant by the City Treasurer

Sec 4 Be it further ordained That whenever any drain in the opinion of the Mayor or Health Committee, shall become dangerous to the health or prejudicial to the comfort of the citizens, on account of dirt or filth, the owner or occupant of the premises where said drain exists, being notified thereof by the Mayor or a member of the Health Committee, shall within ten days remove said dirt and filth, and repair said drain to the satisfaction of the Mayor or Health Committee

Sec 5 Be it further ordained That the Mayor and Aldermen of said city be and they are hereby authorised to assign such number of place in said city as may be necessary for exercising the trade of butcher tanner, and currier tallow chandler and soap boiler

Sec 6 Be it further ordained, That no person shall exercise the trade of a butcher tanner and currier tallow chandler or soap boiler, in any other place in said city than such as may be assigned by the Mayor and Aldermen

Sec 7 Be it further ordained, That when any building, or place assigned for the exercise of either of said trades shall become a nuisance and be hurtful or offensive to travelers, or to persons living near it, it shall be lawful for the Mayor and Aldermen to prohibit the further exercise of such trade at that place, or they may restrain the same by such rules and regulations as the health and comfort of the public may require And no person shall continue to exercise such trade or infringe such rules and regulations, as may be established for its exercise, after such prohibition or rules and regulations shall be made known to them And the penalty for the exercise of such trade or the breach of said rules and regulations shall be considered as incurred each week the same may be continued

Sec 8 Be it further ordained, That no person shall hang or spread or expose any raw dried tanned, or dressed skin, hide or leather other than batter's furs, in any street, lane or public square or upon any sidewalk, building or fence adjoining there o, within one mile of the Kenduskeag Bridge

Sec 9 Be it further ordained That no person shall erect or cause to be erected within said city any hogsty or privy within fifteen feet of any street, highway, alley, or public square, nor within the like distance of any dwelling house

Sec 10 Be it further ordained, That any person offending against any provision of this ordinance shall forfeit and pay a sum not less than one dollar, nor more than twenty dollars and also the sum of one dollar for every six hours the nuisance of substances mentioned in this ordinance, are suffered to continue or remain after due notice the time limited for the removal, and shall be liable to pay the expenses of removal as herein provided sep 17

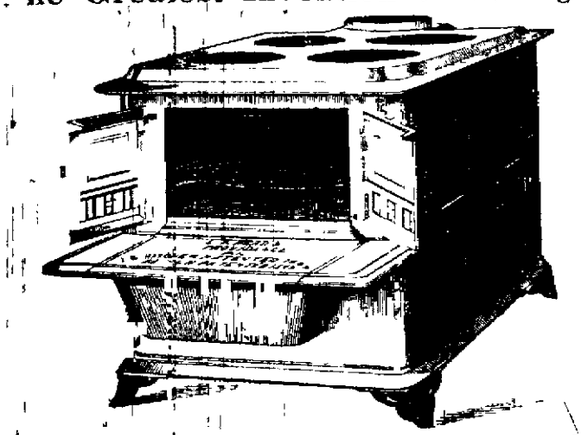
COOKING STOVE,

The Greatest Invention of the Age.



A New Pattern for 8½.

AMONG a host of competitors THIS STOVE for its superior advantages took the first premium at the American institute, city of New York at the Hartford County Fair Connecticut, at the Worcester Co Fair Massachusetts and Franklin Institute Philadelphia

One very important improvement in this Stove is the patent *Broiling Chamber* (see cut) by which broiling is done to perfection in from four to six minutes retaining its juices and giving steaks the fine flavor and pleasant twang of the best charcoal broil it being equally well adapted to toasting or frying) with the draft in the fire arch passing through the broiling chamber and effectually carrying off the scent which usually arises from Broiling The broiling department is always as easy operated by the same fire required for other purposes, and not interfering with any other cooking

The flues being the entire width and passing directly around the oven applies the heat alike. The oven for Baking is not equalled by any Stove in use *Warranted as above*

McFARLAND'S

Cholera Syrup!!

Not a Secret Medicine!!!

Not an "Empiric Preparation!!!"

Here are the Proofs!!

BANGOR Sept 5 1849

This certifies that I have used McFARLANDS CHOLERA SYRUP, with great benefit to my health, having accomplished a complete cure in a very mild affection of the Bowels and I have heard others speak of it in the highest terms who had used it in violent attacks similar to Cholera

I can recommend the medicine without hesitation as being superior to any thing I ever tried for Diarrhoea, Cholera Morbus and kindred diseases

WARREN THAYER,
Athens Village, Me

TO THE PUBLIC.

I have used McFARLAND'S CHOLERA SYRUP, in severe cases of Bowel Complaints, for myself and family, and have also given it to other persons for Vomiting Purging and Cramps and have recommended the medicine to many acquaintances who have used it and I know, as far as I can learn, has it failed of immediate cure

This morning Sept 2d I was seized with great distress in the Bowels accompanied with excessive vomiting and purging and used McFARLAND'S but to take the above Syrup according to directions which gave me immediate relief and by noon I was well and have been so ever since

I would cheerfully recommend this medicine as approved effectual in all cases which have fallen under my observation

DR. POLLARD'S MEDICINES.

I HAVE this day constituted and appointed SILAS ALDEN, No. 4 Gothic Block, Main Street, *(under the Hatch House,)* my only authorized agent, (within 15 miles of the city of Bangor) for the sale of my Pile, Humor, and Pin Worm Medicines, which have effected many cures where all other remedies had failed. They have given the great relief, and general satisfaction to those who have used them, of any Medicines yet discovered. The Proprietor and Inventor having been for more than 20 years previous to 1846, one of the greatest sufferers in the world, from Cankey, Inward Humors, and Cutaneous Diseases, and with the Piles especially, has suffered beyond all description; therefore he knows their good effects from personal experience. All who are troubled with the above complaints are more or less afflicted with the Palpitation of the Heart, Rushing of Blood to the Head, Dizziness, Kidney Complaint, Scalding of the Water Costiveness, Female Difficulties which originates from these troubles. Those wishing for my services, or Medicines for any of the above complaints can find me when not on the wing, by inquiring at R. K. HARDY'S No. 3 Harlow's Block SILAS ALDEN'S No. 4 Main Street, or at my house, Spring Street.

I do not claim as many have done, to cure all Diseases, for human flesh is heir to, but will in all cases of the Piles warrant a cure for any reasonable sum in 60 days, or charge nothing provided the patient will come to Bangor where I can see them once in two or three days.

DR. PEARSON'S CARMINATIVE BALSAM.

Great Cholera Preventive.

THIS article should be in the possession of every person travelling. I has never been known to fail of producing the desired results in cases of Cholera Morbus Diarrhœa, and has during the prevalence of the CHOLERA in this country been performing wonderful Cures,—though it is recommended more particularly as a PREVENTIVE but it is useful in any stage of the complaint. It takes immediately upon the appearance of the Diarrhœa—which is a premonitory symptom of Cholera—an attack of this fearful disease may be prevented. In all fevers Bowel Complaints and Summer Complaints of children it is unequaled. Dr. I has made use of this remedy in his practice for near 10 years with the most remarkable success. Prepared by Dr. Pearson price 50 cents per bottle.

It is decidedly the most powerful remedy for the cure of Diarrhœa Cholera Morbus and Summer Complaints of children ever offered to the public. It is taken in the same way as Paregoric, and very little is required to effect a cure.
